

2014 Behavioral Health Medication Formulary

Effective January 1, 2014

Introduction

Magellan is pleased to provide the 2014 Magellan Maricopa County Behavioral Health formulary for Title XIX/XXI and Non-Title XIX/XXI SMI members, created to help manage Maricopa County's behavioral health pharmacy benefit. The list contains drugs that are safe and effective and includes all medications listed on the ADHS/DBHS Behavioral Health Drug List (BHDL). This is an informational tool for medical providers, pharmacists, and members designed to assist in selecting clinically appropriate and cost-effective products.

Notice

The information contained in this formulary is provided solely for the convenience of medical providers and members. This formulary is not intended to be a substitute for the knowledge, expertise, skill or judgment of the medical provider in their choice of prescription drugs. Magellan assumes no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

Pharmacy and Therapeutics (P&T) Committee

The DBHS P&T committee is composed of clinical staff from the Department and each of its contractors. This committee meets at least quarterly to discuss a variety of clinical issues, which pertain to drug selections, including formulary additions, deletions and changes as well as pharmacy program management.

The P&T Committee evaluates clinical information for newly marketed drugs within 180 days of market launch. Current medications are reviewed on an annual basis. The evaluation may include, but is not limited to the following review categories: safety, efficacy, comparative data and studies, FDA approved indications, treatment and consensus guidelines, adverse events, contraindications/warnings/precautions, pharmacokinetics, dosage frequency and formulations, patient administration/compliance considerations, and medical outcomes and pharmaco-economic studies. This assures that the formulary remains responsive to patient and medical provider needs.

Generic Substitution

Magellan mandates the use of generic drugs when available. Drugs listed in italics are FDA approved generic medications, and the generic product will be dispensed unless an exception has been granted by the Magellan Medical Director through Prior Authorization.

Prior Authorization

Drugs indicated with a "PA" require prior authorization. A Behavioral Health Medical Practitioner may request Prior Authorization by completing the form that can be found on the Magellan Web site at www.MagellanofAZ.com. Please call the Help Desk toll-free at 1-800-790-1631 or fax a completed Prior Authorization form toll-free to 1-866-498-0628.

Specific medications have restrictions on the quantity of medications that will be dispensed within a 30-day supply unless otherwise notated. For additional information, please contact the Help Desk toll-free at 1-800-790-1631.

The formulary is a listing of drug products that are eligible for payment when prescribed by a contracted provider of the Maricopa County Behavioral Authority. Product extensions, such as extended-release, orally-disintegrating tablets, liquid, or injectables are not covered unless specifically listed. Magellan will not cover drugs that are

experimental or investigational. Medications for non-FDA approved uses must have sufficient peer-reviewed literature to support their use for the prescribed psychiatric indication.

DOSING RESTRICTIONS	
Medication	Maximum dose
ABILIFY	30 mg/day
ABILIFY MAINTENA	400 mg/month
APLENZIN ER	522 mg/day
<i>bupropion/xl</i>	450 mg/day
<i>bupropion sr</i>	400 mg/day
<i>citalopram</i>	60 mg/day
<i>clozapine/odt</i>	900 mg/day
<i>desvenlafaxine</i>	400 mg/day
<i>duloxetine</i>	120 mg/day
EMSAM TD Patch	12 mg/day
<i>escitalopram</i>	20 mg/day
FANAPT	24 mg/day
<i>fluoxetine</i>	80 mg/day
<i>fluoxetine dr weekly</i>	90 mg/week
<i>fluvoxamine/er</i>	300 mg/day
INVEGA ER	12 mg/day
INVEGA SUSTENNA	234 mg/month
LATUDA	160 mg/day
MARPLAN	60 mg/day
<i>mirtazapine/odt</i>	45 mg/day
<i>nefazodone</i>	600 mg/day
<i>olanzapine</i>	20 mg/day
<i>olanzapine and fluoxetine</i>	12-50 mg/day
OLEPTRO ER	375 mg/day
<i>paroxetine</i>	60 mg/day
<i>paroxetine er</i>	75 mg/day
PEXEVA	60 mg/day
<i>quetiapine</i>	800 mg/day
<i>risperidone</i>	10 mg/day
RISPERDAL CONSTA	50 mg/2 weeks
SAPHRIS SL	20 mg/day
SEROQUEL XR	800 mg /day
<i>sertraline</i>	200 mg/day
<i>trazodone</i>	400 mg/day
<i>venlafaxine/er</i>	375 mg/day
VIIBRYD	40 mg/day
<i>ziprasidone</i>	160 mg/day
Medication	Minimum dosing
<i>quetiapine</i>	150 mg/day after 30 days

Medication	Age group	Maximum doses in pediatrics/adolescents
ABILIFY	< 10 yrs	15 mg/day
<i>quetiapine</i>	< 13 yrs	600 mg/day
<i>risperidone</i>	< 10 yrs	3 mg/day
<i>risperidone</i>	10-17 yrs	6 mg/day

Other Age Edits: Prior authorization required for use of any antipsychotic or stimulant in children less than 6 years of age

POLYPHARMACY EDITS REQUIRING PA (OTHER THAN FOR TAPERING OR CROSS-OVER)

STIMULANTS: Combinations of two long-acting stimulants with the same active ingredient (*e.g. methylphenidate er + methylphenidate cd*) or combinations of two different types of stimulant medications (*e.g., methylphenidate er + dextamphetamine tablet*)

ANTIPSYCHOTICS: Treatment with more than one antipsychotic (first or second generation)

SNRIs/ATOMOXETINE: Combinations with 2 SNRIs (*venlafaxine/ER, duloxetine, desvenlafaxine*) or an SNRI + atomoxetine/Strattera®

SSRIs: Combinations of more than one SSRI or an SSRI and polyserotonergic antidepressant (*e.g. Viibryd®*)

SSRI + SNRI: Combinations of SSRIs or polyserotonergic antidepressants and an SNRI

DRUG INTERACTION/SAFETY EDITS

ANTIDEPRESSANT P450 INTERACTIONS: TCAs in combination with 2D6 inhibitors (*e.g. fluoxetine, paroxetine, bupropion, duloxetine, or sertraline*) require PA as does clomipramine with fluvoxamine (strong 1A2 inhibitor)

MAOIs: MAO inhibitors (*e.g. phenelzine, tranylcypromine, MARPLAN, EMSAM*) require a PA when used with other antidepressants, Strattera® or carbamazepine

CLOZAPINE: Combinations of clozapine or clozapine ODT with fluvoxamine or carbamazepine require PA

LAIs + CBZ: Long acting injectables (*e.g. Risperdal Consta, Invega Sustenna or Abilify Maintena*) in combination with carbamazepine requires a PA.
